

Sales Performance Dashboard

Power BI Dashboard Visualization

Power BI Dashboard – Work Done

1. Dashboard Created

Created an interactive **Sales Performance Dashboard in Power BI** to present business performance in a simple and visual format.

2. KPI Cards

Created KPI cards to display:

- **Total Sales:** 320.13K
- **Total Profit:** 70.73K
- **Total Quantity:** 2K

3. Visualizations Created

- **Sales and Profit Trends Over Time** – shows performance from 2024–2026.
- **Sales by Category** – compares Electronics, Furniture and Office Supplies.
- **Sales by Segment** – shows Consumer, Corporate and Home Office contribution.
- **Sales vs Profit by Category** – compares sales and profit across categories.
- **Sales & Profit Margin by Category** – displays sales along with profit margin.
- **Sales by Product** – ranks products based on sales.

4. Dashboard Formatting

- Applied a **professional and clean dashboard layout**.
- Used consistent colors, titles, labels and spacing.
- Added data labels for easier understanding.
- Arranged KPIs and charts in an organized order for quick analysis.

5. Outcome

The Power BI dashboard provides a **clear visual overview of sales, profit, quantity, category, segment and product performance**, making the results easy to understand and compare.

Tool Used: Microsoft Power BI
